HF SUPERFLEX HOSE

High performance and resistance hose, PU (Polyurethane) composite and thermoplastic rubber, reinforced with polyester. Antistatic. 12 m coil - 36 feet
Internal diameter 10 mm-external diameter 15 mm
#60309/HF

Walcom blowers, gun wash machines and more...

ECODRY Light

The ECODRY Light is an efficient and easy to use water-based paint drying gun that by exploiting the Venturi system, increases the emitted air volume by about 15 times, thus significantly reducing drying times. The enormous generated volume of air, along with heat taken from the paint booth (20% mains air, 80% recycled air), allows for the fast evaporation of water residue.
#60143

FAN JET & FAN JET Stand

THERMODRY FANJET Hand Blower is revolutionary in design, concept and performance in air drying equipment. A wide, gentle and even fan that is very controllable. When you are done it fits into your pocket or stick the magnetic version to your booth wall.
#60150/BP Fanjet blower #60150/MAG Magnetic Fanjet blower
#60167 Adjustable stand with 2 x flexible arms.

Easy/S - Gun Cleaning Machine

Solid state design ensures years of trouble free use.

3 Cleaning stages, AIR OPERATED

- Recycled solvent flow
- Clean solvent flow
- Atomised clean solvent flow
- Air venturi fume extraction
- ATEX Approved

Flat based cleaning bay ensure an easy-to-clean surface and a solid work space for stripping and re-assembling guns. #90061

(not included)

Stone guard, Cavity Wax & Underbody Shutz Gun

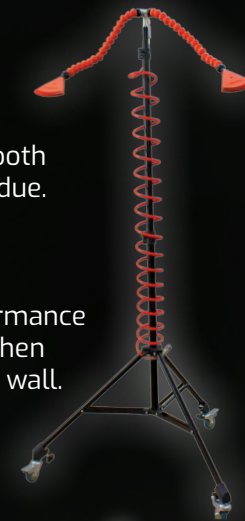

It works with disposable cup adapter (PPS® 1ST generation). Applies 2K components - soundproofing - protective compounds.

Adjustable spray nozzle, Lightweight nylon body, EU Pot/Can thread 700 mm long detachable cavity wax hose with brass fittings
2x Pick-up tubes 1x 120 mm & 1x 230 mm
#30055

MAGNETIC WALL MOUNT

ALL ADAPTERS AND USB-C INCLUDED

FEATURES

- New motherboard and CPU
- Improved battery performance by 45%
- Improved CRI to 97
- Wider light spectrum 6500K
- 4 times more lux than competition
- 5 universal air cap ring adapters to fit most of the spray guns
- Rechargeable li-on battery 2h40 duration at max power
- Adjustable brightness
- Protective and replaceable matte lens (10 pk lens #90240)
- Atex approved
- USB-C

GENESI CARBONIO 360 EVO

EVO represents the **ULTIMATE** in spray gun handling & performance. Equipped with a revolutionary integrated airflow regulator and quick-release digital gauge. This technology has not been seen in other spray guns. Only 340 grams with no bulky regulator to weigh it down or get in the way.

Body: Carbon fiber, Nano protective treated over forged aluminium skeleton

Regulator: fully Integrated

Gauge: Quick release digital

Cup: POM White Pot 680 cc

Air cap: "anticorodal" anodised aluminium

Air cap ring: carbon fiber

Needle: stainless steel AISI 303

Nozzle: lightened stainless steel ANSI 303

Weight: 340 g (gun only)

Working pressure: 0.5-2.5 bar - 7.2-36 psi

Air consumption: 350 l/min at 2 bar - 12 cfm at 29 psi

Packaging: plastic eco box

Set-Up: 1.0 - 1.1 - 1.2 - 1.3 - 1.4 - 1.7 - 1.9

360 EVO comes with...carbon fiber gun, Integrated regulator, Digital gauge, 680 CC Pot, Nano coating, In-pot filters, Rebuild kit, Gun Wrench, Oil, Cleaning brush & Storage case

GENESI CARBONIO 360 evo

CLEAR (#W0130)**

High Atomisation & Low Over spray Effortless clear coating of MS, H5 & UHS clears. Wide fan pattern with even paint distribution. The wide and precise range on the paint control regulation allow painters to find the best setting for their own personal spraying style.

MP CLEAR AIR CAP (#W0105/CMP)**

For Showroom & Custom finishes. Flow-coats and mirror like gloss off the gun!

GENESI CARBONIO 360 evo

BASE (#W0230)**

High Atomisation & Low Over spray Perfect layout with proper distribution and flow orientation of pearls and pigments, 12 hole nozzle, with precise and wide range of adjustment for fan and paint flow. Waterborne or solvent.

GENESI CARBONIO 360 evo

GEO (#W0430)**

HVLP with dual atomising nozzle technology, 6 pre-atomising holes, air-splitting technology, excellent product lay out. A unique system that delivers incredible performance. Waterborne or solvent.

GENESI CARBONIO 360 evo

HVLP (#W0330)**

For those wanting HVLP, this is a perfect professional spray gun for both waterborne and solvent base coats and clear coats.

GENESI ALLUMINIO

The classic Genesi Topline reincarnate into a super light, totally smooth, aluminium body. Alluminio delivers professional high-performance, painting and comfort.

High Atomisation, Low over spray technology.

Available in HTE Base, HTE Clear and HVLP.

Body: anodised forged aluminium

Reg & Gauge: A113 reg & gauge

Cup: POM White Pot 680 cc

Air cap: "anticorodal" anodised aluminium

Air cap ring: anodised aluminium

Needle-Nozzle: stainless steel AISI 303

Weight: 415 g (gun only)

Working pressure:

HALO BASE/CLEAR= range 0.5-2 bar-7.2-29 psi compliant max 2 bar (29 psi)

HVLP/GEO= range 0.5-2 bar-7.2-29 psi HVLP max 2 bar (29 psi)

Air consumption: HALO= 350 l/min at 2 bar-12 cfm at 29 psi, HVLP/GEO= 380-415 l/min at 2 bar - 13-14 cfm at 29 psi

Packaging: plastic eco box

Set-Up: 1.0 - 1.1 - 1.2 - 1.3 - 1.4 - 1.5 - 1.7 - 1.9

KOMBAT KILLER LIMITED EDITION

#803013-NA

SLIM KOMBAT KEVLAR® SPRAY GUN BUILT TO WIN BATTLES

An all rounder for performance and advanced technology!

For clears, base coats, primers & sealers.

Automotive, marine, industrial & more...this gun handles it all.

For over a decade SLIM has been synonymous with quality, reliability, value and versatility. KOMBAT is built on this foundation and is embraced by professional and DIY painters all over the world.

KOMBAT incorporates a unique and revolutionary version of the spray gun. With the inclusion of advanced spray gun technologies and a lightweight Kevlar® body, this spray gun is a game changer! High Atomisation and Low Over spray technology.

Body: Kevlar® fiber, die cast magnesium

Reg & Gauge: Analogue reg & gauge

Cup: white pot 680 cc

Air cap: anodised aluminium

Air cap ring & Trigger: Kevlar® fiber

Needle-Nozzle: stainless steel AISI 303

Weight: 345 g (gun only)

Working pressure: 0.5- 2.5 bar - 7.2-36 psi / recommended at 2 bar (29 psi)

Air consumption: HALO 265 l/min at 2 bar - 9 cfm at 29 psi; HVLP 315 l/min at 2 bar 11 cfm at 29 psi
